EXPERIENCE

- AccessGlobal Technology Pvt. Ltd.** — Web Development Intern | Surat, Gujarat May '25 - Jun. '25
- Collaborated with a team to develop and deploy three production-grade web applications:
 - Built and deployed [agtccloud.in](#) and [agtpl.in](#) from scratch
 - Refurbished and optimized [agtgloba.in](#) for improved performance
 - Gained hands-on experience in **Linux server setup**, virtual server configuration, and hosting management using **ISP-Config**
 - Deployed **React** and **Django** applications in production using **PM2** and **Gunicorn**, respectively
 - Managed deployments via **Apache2**, **WinSCP**, and hosting control panels

EDUCATION

- Charusat University** — B.Tech in Computer Engineering | Anand, Gujarat Jul. '23 - Present
- CGPA: 9.52 / 10.0

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, SQL, C
Frameworks & Libraries: React, Node.js, Express.js, Django
Databases: PostgreSQL, MongoDB, MySQL
Tools & Platforms: Apache, ISPConfig, Linux, Azure, Git, Postman, Figma

PROJECTS

- EduVerse** — Online Placement Preparation Platform [🌐] [🔗]
- Tech Stack:** PERN (Prisma), Socket.io, Tailwind CSS, Zustand, JWT
 - Engineered a competitive exam platform supporting concurrent users with timed contests, live leaderboards, and a real-time AI assistant for guidance via WebSocket.
 - Built a secure anti-malpractice exam environment with tab-switch detection, clipboard blocking, and focus-loss logging.
 - Implemented **multi-tier RBAC** with JWT/Bcrypt and designed RESTful APIs consumed by both web and admin dashboards.
- Chatty** — Real-Time Chat Platform [🌐] [🔗] [🌐] [🔗]
- Tech Stack:** MERN, Socket.io, Tailwind CSS, Zustand, JWT, Cloudinary, DaisyUI
 - Developed a real-time messaging platform with live user-presence tracking using **Socket.io** event-driven architecture.
 - Secured routes with **JWT + Bcrypt** authentication; integrated **Cloudinary API** for profile and in-chat image uploads.
 - Delivered a fully responsive UI with **30+ theme presets** using Tailwind CSS and DaisyUI.
- CodeSage** — AI-Powered Code Optimization & Analysis Platform [🌐] [🔗] [🌐] [🔗]
- Tech Stack:** Next.js, Fastify, TypeScript, PostgreSQL, Redis, Tailwind CSS, Tree-sitter
 - Implemented **automated GitHub PR reviews** with scoring across performance and code quality.
 - Developed a **real-time dashboard** with complexity metrics and interactive diff previews.
 - Engineered a **hallucination-resistant AI system** using AST data with LLM prompts.
 - Designed scalable architecture with **Fastify APIs, Redis queues, and worker pipeline**.

CO-CURRICULAR ACTIVITIES

- Adobe India Hackathon 2025** [Certificate] [🔗]
- Ranked in the **top 5%** of 85,000+ participants (Round 1: DSA & MCQ); advanced to Round 2.
- HackNUthon 6.0** — Nirma University [🌐] [🔗]
- Secured 4th place** among competing teams; built a full-stack fintech solution within the hackathon deadline.
- HackSpire 2025** — Adani University [🌐] [🔗]
- Selected among the **top 30 teams**; built a mental well-being platform under time constraints.

ACHIEVEMENTS

- NPTEL — Data Structures and Algorithms using Java (Elite Certificate) [Certificate] [🔗]
- GeeksforGeeks — Solved 100+ problems in C++ [Profile] [🔗]
- LeetCode — Solved 50+ problems in C++ [Profile] [🔗]
